## IF YOU WANT HIGH QUALITY SEED

As in each of the past 75 years we are again furnishing noxious weed free, carefully cleaned, higher quality seed than can generally be obtained elsewhere. Premium alfalfa and clover seed under price ceilings need only show a purity of 99.25%. This does not meet our ideas of top quality so that essentially every pound of legume seed we get is heavily recleaned. That's the reason tags on Scotts Seed show purities of above 99.60% and no noxious weeds such as dodder in lespedeza or the clovers.

In times when prices are high and supplies limited, much undesirable legume and grass seeds, poorly cleaned grains and inferior hybrid seed corn are offered for sale. Low priced seed always has something wrong with it. In all of our years of experience we have never seen that statement disproven.

**ALFALFA and CLOVERS** - While total supplies are considered barely adequate, we have plenty of red clover, alsike, sweet clover and ladino for all of our old customers and some new ones too. No one can get alfalfa from all states nor much of the extreme northern grown seed as the crop is figured at 20% of normal. But we do have good supplies of Kansas, Colorado and Utah seed, also will again have limited amounts of Certified Cumberland and Midland Red Clover in February at \$31.25 per bushel.

**HYBRID CORN** - We'll soon be ready to make shipment on most hybrids. Scotts corn is graded for easy, trouble free planting. Appearance may not be quite equal to that of last year because of the summer drought but there is no let-up in preparation or in seeing that the corn will produce as expected.

**SOYBEANS** - The black beans contain a slight mixture of yellows which is not objectionable for hay purposes. Other beans are as described and we only wish we had enough Lincolns to fill all demands. Plant these in rows at 45 to 60 lbs per acre to help stretch seed supplies. Yields won't suffer.

**GRAINS** - The uncertified Vicland oats are from certified seed and are essentially variety pure. All oats and barley are nice and bright, well cleaned and high in germination.

**MEADOW MIXTURES** - The same quality seed as listed in the various separate items but simply mixed for convenience in sowing. More customers are using the meadow and pasture mixtures each year. W J Renner, manager of Allen Farms near Springfield, Ohio says "I want 900 lbs of that mixture just like I got last year. It really came through the drought".

We suggest that you do not delay sending your order.

# Seed Price List

January 15, 1945

"SCOTT'S" grade is the highest quality seed available. It is carefully selected and thoroughly re-cleaned. Noxious weed free. May contain 0.10% to 0.15% other crop seed and in most cases will test 99.75% pure.

SPECIALS: The grades marked "Special" may be slightly off in appearance or contain one or two percent of other clovers or crop seed. This seed is clean and perfectly safe to sow.

Price Ceiling Regulations on Alfalfa, Clovers and Timothy are in effect under Revised M. P. R. 471. If any quotations on these seeds are above prices permitted by ceilings, adjustments will be made. All prices subject to prompt acceptances.

## RED AND ALSIKE

Scotts Medium Red.....	\$27.25 bu.
Certified Midland .....	(Sold Out)
Certified Cumberland .....	(Sold Out)
Scotts Mammoth .....	27.25 bu.
Special Mammoth .....	26.10 bu.
Scotts Alsike .....	25.50 bu.
Special Alsike .....	23.75 bu.
Crimson Clover .....	.19 lb.
Hubam (Annual Sweet).....	.30 lb.

## SWEET CLOVER

Scotts Yellow Blossom.....	\$12.50 bu.
Scotts White Blossom Type	12.50 bu.

## OTHER CLOVERS

Ladino .....	\$2.60 lb.
Ladino with 50% Alsike.....	1.30 lb.
Louisiana White .....	.90 lb.
White Dutch .....	.85 lb.
Wild White (Approved).....	1.25 lb.
Birdsfoot Trefoil .....	1.85 lb.

## ALFALFA

### U. S. Verified Origin

Scotts Oklahoma .....	\$27.00 bu.
Scotts Kansas .....	29.25 bu.
Scotts Colorado .....	29.50 bu.
Scotts Utah .....	29.50 bu.

## LESPEDeza

Scotts Korean—Unhulled.....	\$13.00 cwt.
Scotts Korean—Hulled.....	17.50 cwt.
Scotts Sericea—Hulled .....	35.00 cwt.

## Legume Inoculation

Soybeans	Red, Alsike, White Clover	Alfalfa and Sweet Clover	New Improved Ceresan
2 bu. size.....\$ .30 ea.	1 bu. size.....\$ .50 ea.	1 bu. size.....\$ .50 ea.	For Treating Wheat, Oats and Barley

			½ ounce treats one bushel

## MEADOW MIXTURES

Seed 12-16 lbs. per acre)

For high lime soils

Scotts Alfalfa Mixture.....	\$38.00 cwt.
Alfalfa 7 lbs., Red Clover 4 lbs., Timothy 4 lbs.	

For medium lime soils

Scotts Red Clover Mixture.....	\$33.00 cwt.
Red 6 lbs., Alfalfa 2 lbs., Alsike 2 lbs., Timothy 5 lbs.	

Where soil is acid or drainage is poor

Scotts Red Clover, Alsike.....	\$31.00 cwt.
Red 6 lbs., Alsike 3 lbs., Redtop 2 lbs., Timothy 4 lbs.	

## PASTURE GRASSES

Kentucky Bluegrass ( <i>Fancy</i> )	\$34.00 cwt.
Canada Bluegrass .....	38.00 cwt.
Redtop ( <i>Fancy</i> ) .....	22.00 cwt.
Orchard Grass .....	41.00 cwt.
Reed Canary Grass .....	45.00 cwt.
Meadow Fescue .....	33.00 cwt.

## PASTURE MIXTURE.....\$32.50 cwt.

A balanced mixture of two-thirds grasses and one-third clovers by weight for establishing high-productive permanent pastures, or for reseeding old pastures. Contains Kentucky bluegrass, redtop, timothy, ryegrass, orchard grass, Louisiana white clover, red and alsike clovers, and alfalfa.

Sow 20 to 25 pounds per acre for a new seeding and about half that amount for reseeding an old pasture.

## TIMOTHY

Scotts Timothy .....	\$4.50 bu.
Special Timothy .....	4.35 bu.

## SMOOTH BROME GRASS

Southern Type .....	\$21.00 cwt.
Northern Type .....	19.00 cwt.

## RYEGRASS

Ryegrass (Annual) .....	\$14.00 cwt.
Ryegrass (Perennial) .....	23.00 cwt.

Always inoculate legumes

Hairy Vetch .....	\$18.00 cwt.
Dwarf Essex Rape.....	21.00 cwt.

## SUNDRY SEED

German Millet .....	\$4.00 bu.
Black Amber Cane (50 lbs.)	4.25 bu.
90 to 100 days from planting to silage stage	
Orange Cane (50 lbs.) .....	4.00 bu.
110 to 120 days from planting to silage stage	
Atlas Sorgo (50 lbs.).....	3.75 bu.
115 to 125 days from planting to silage stage	
SUDAN GRASS.....	\$11.00 cwt.

## SEED OATS AND BARLEY

Tama and Vicland are two new varieties of oats. They are smut and rust resistant, high in test weight, stiff strawed, high yielding, particularly superior when rust is severe, and about 2 days later than Columbia in maturity. All seed grains are treated excepting the uncertified Vicland.

	1 to 20 bu.	Over 20 bu.
Vicland (from Certified Seed).....	\$1.70 bu.	\$1.65 bu.
Vicland (Certified) .....	2.30 bu.	2.25 bu.
Tama (Certified) .....	2.10 bu.	2.05 bu.
Columbia (Early) .....	1.60 bu.	1.55 bu.
Wayne (Medium) (Certified) .....	1.80 bu.	1.75 bu.

BARLEY (Wis. 38—Smooth).....	2.40 bu.	2.35 bu.
------------------------------	----------	----------

## SOYBEANS

Richland (Early) (Certified).....	\$3.35 bu.
Richland (Early) .....	3.10 bu.
Mingo (Medium Early) .....	3.25 bu.
Manchu (Medium) .....	3.00 bu.
Black (Kingwa Type 3% Yellow).....	3.20 bu.
Lincoln (Medium Early) (Certified).....	3.50 bu.
Lincoln—A new variety high in content and quality of oil.	
Medium straw stiffness. Orders limited to 10 bushels.	
Bansei (Edible) .....	7.50 bu.

## SWEET CORN

Certified Golden Cross Bantam .....	\$ .55 lb.
Certified Ohiogold .....	.70 lb.
Stowell's Evergreen .....	.35 lb.
POP CORN (South American Yellow).....	.25 lb.

# TREATED HYBRID SEED CORN

Scotts Hybrid Corn has been graded for width, length and thickness and will plant easily and accurately in any make of planter. It is treated for protection against disease. The round kernels are graded uniformly and will yield just as well as the flats but special plates are usually required for accurate planting. These plates are available for most standard planters.

## EARLY MATURING HYBRIDS

	Round Grade	Flat Grade
Ohio M 15.....	\$5.75 bu.	\$8.25 bu.
Ohio M 34.....	5.75 bu.	8.25 bu.
Ohio K 24.....	5.75 bu.	8.25 bu.
Ohio K 35.....	5.75 bu.	8.25 bu.

## MEDIUM MATURING HYBRIDS

	Round Grade	Flat Grade
Iowa 939.....	\$5.25 bu.	\$8.25 bu.
Ohio W 17.....	5.25 bu.	8.25 bu.
Ohio W 36.....	5.75 bu.	8.25 bu.
Ind. 610.....	5.75 bu.	8.25 bu.

## MEDIUM LATE HYBRIDS

	Round Grade	Flat Grade
Ohio C 38.....	\$5.75 bu.	\$8.25 bu.
Iowa 4059.....	5.75 bu.	8.25 bu.
U. S. 44.....	5.75 bu.	8.25 bu.
U. S. 13.....	5.75 bu.	8.25 bu.

*Ky. 203—White Hybrid, later than U. S. 13. Flat Kernels \$9.00 bu.*

**MEDIUM SMALL FLATS**—\$7.00 per bu. The first size smaller than medium flats. Regraded for length and width to remove all short and small kernels, and to insure accurate planting. Economical to use as will plant 2 to 3 acres more per bushel than other grades.

**THICK FLATS**—\$7.00 per bu. These are 1/64 of an inch thicker than the standard grade medium and large flats. In most planters, the same plates as are used for the regular flats will give uniform and accurate planting.

**ROUNDS**—Only medium and large rounds are offered. Due to the dry weather, pollination in our crossing fields wasn't as complete as in past years resulting in a higher percentage of round kernels. Quotations have been made accordingly.

**SCOTT HYBRIDS**—While reports on the performance of these Hybrids have been quite favorable, yet because of the past unusual season, we suggest these be used on a trial basis.

Flat Kernels - - - \$4.50 per half bu.; \$2.25 per peck

Round Kernels - - - \$3.50 per half bu.; \$1.75 per peck

Scotts 22—Reported higher yielding than M Hybrids. Same maturity. More drought resistant, fodder remains green, uniform, ears husk easily.

Scotts 66—Just a shade earlier than Iowa 939. Drought, blight and stalk rot resistant; strong rooted and high yielding. An easy husking, promising medium maturing Hybrid.

Scotts 99—The same maturity as U S 13. Dark green, resistant to disease, slightly higher yielding. Tendency for two good ears per stalk.
